

OPTIMISTIC

TRANSFORMING CARE

Finalized January 2016

VISION

To revolutionize nursing home care.

MISSION

To optimize the quality of life of nursing home residents by implementing evidence-based strategies to improve medical, transitional, and palliative care.

GUIDING PRINCIPLES

- Care is resident-centered & proactive.
- The clinical team is well-supported, knowledgeable, and engaged.
- Interventions are evidence-based and data informed.
- The innovative model of team-based supportive care is consistently implemented.
- Effective communication is promoted at all levels.
- Collaborative partnerships lead to improved care.
